

MAHMUT SELİZ

WEB DEVELOPER | FREELANCER

SUMMARY

I'm **Mahmut**, a **motivated learner** who finds inspiration in acquiring **new skills** and seeking out positions that will **advance** me to **next level**.

I previously employed as **Full Stack web developer** who now owns his **own business** and works as a **freelancer**.

I primarily use **Python** and **Javascript / Typescript** to build **web crawlers** and **scrapers**, **automation bots**, and **browser extensions**, but I also use **Django** and **Firebase** to build websites.

For those websites, I design, create, or integrate **APIs**.

Additionally, I use **PyQt5** and **Python** to produce **desktop applications** and **scripts**.

I have excellent **communication abilities**, and good at **problem solving**.

EDUCATIONAL BACKGROUND

Computer Engineering

Institution: Near East University

2017 - * (*Completed 4 years)

LEARNING

- Redis
- Docker
- RabbitMq / Kafka
- GraphQL
- Svelte
- Go
- Github Actions
- Regex
- Trello
- FFmpeg

PERSONAL PROJECTS

- Analytics like project with **Firestore**
- Word similarity website with **Firestore**
- Batch File Renamer
- Socket Based **CLI** chat
- Blog Site with CMS built by **Bootstrap 5**
- **Discord Bots**
- Book tracker desktop app with **PyQt5**
- Fiverr keyword Scrapper with **Selenium**
- Ad Clicker **Selenium** Automation
- Amazon Product Scrapper **Extension**
- Chat Automation Browser **Scripts**
- Scenario Parser **Script**

INTERESTS & HOBBIES

- In-depth understanding of **games**.
- Video Editing
- Keeping a **diary** since 2017.
- Implementing **Data Structures & Algorithms** from scratch.
- I read daily.
- Continuous learning through reading **articles** and exploring **new technologies**.
- Learning **French**
- Exploring fundamental **game development** concepts using Pygame.
